Independent Auditor's Report

Members of the Township Board
Township of Crystal Falls
Crystal Falls, Michigan

I have audited the accompanying financial statements of the governmental activities, the business-type, each major fund, and the aggregate remaining fund information of the Township of Crystal Falls, Michigan, as of and for the year ended March 31, 2009, which collectively comprise the Township's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Township of Crystal Falls, Michigan's management. My responsibility is to express opinions on these financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinions.

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Township of Crystal Falls, Michigan, as of March 31, 2009, and the respective changes in financial position, and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, I have also issued my report dated July 22, 2009, on my consideration of the Township of Crystal Falls, Michigan's internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and important for assessing the results of my audit.

The management's discussion and analysis and budgetary comparison information on pages 6 through 9 and 34 through 36, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. I have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, I did not audit the information and express no opinion on it.

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Township of Crystal Falls, Michigan's basic financial statements. The comparative financial statements of the Water Utility Fund are presented for the purpose of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards, is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements of the Township of Crystal Falls, Michigan. The schedule of expenditures of federal awards have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in my opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Barry E. Gaudette, CPA, PC

July 22, 2009

TOWNSHIP OF CRYSTAL FALLS
MANAGEMENT'S DISCUSSION AND ANALYSIS
March 31, 2009

Using this Annual Report

This annual report consists of a series of financial statements. The Statement of Net Assets and the Statement of Activities provide information about the activities of the Township as a whole and present a longer-term view of the Township's finances. Fund financial statements tell how these services were financed in the short-term, as well as what remains for future spending. Fund financial statements also report the Township's operations in more detail than the government-wide financial statements.

The Township as a Whole

The Township's combined net assets increased 26.0% from a year ago – increasing from \$3.937 million to \$4.962 million. As we look at the governmental activities separately from the business-type activities, we can see that the governmental activities experienced a decrease of approximately \$14,000 during the year (1.0% decrease). This is attributed to substantial spending (\$148,000) on road reconstruction completed in conjunction with the water project. The water project called for replacement of the roads removed to complete the project, approximately half-width in most places, while the Township Improvement Fund was used to complete the road replacements. In addition, the Township took an option to purchase 80 acres of land for \$149,000 to be used for future economic development. The option had a cost during the current year of \$20,000. The business-type activities experienced an increase in net assets of nearly \$1.039 million. The increase can be primarily attributed to grant funds received on the water project from the United States Environmental Protection Agency and United States Department of Agriculture (Rural Development Agency). In a condensed format, the table below shows a comparison of the net assets (in thousands of dollars) as of the current date to the prior year.

	Governmental Activities		Business-Type Activities		Total	
	2009	2008	2009	2008	2009	2008

TOWNSHIP OF CRYSTAL FALLS
MANAGEMENT'S DISCUSSION AND ANALYSIS
March 31, 2009

Unrestricted net assets – the part of net assets that can be used to finance day to day operations, decreased by \$22,000 for the governmental activities. This minimal decrease can be attributed primarily to the Road improvements (the roads are not owned by the Township) and the execution of the land purchase option. The current level of unrestricted net assets for our governmental activities stands at \$703,000.

The unrestricted net assets for the business type decreased by \$34,000. This can be attributed to the Water Fund performance which again shows a loss as reflected on page 37 of these audited financial statements.. While the retained earnings portion of unrestricted net assets in the Sewer Utility System continues as a deficit, the fund has implemented various changes to increase revenues and did show net income during the year thereby reducing the deficit of the fund from approximately \$15,000 to \$2,200.

The following table shows the changes of the net assets (in thousands of dollars) as of the current date to the prior year:

TOWNSHIP OF CRYSTAL FALLS
MANAGEMENT'S DISCUSSION AND ANALYSIS
March 31, 2009

The Township's net assets remain at a comfortable level. This can be attributed to conservative yet necessary planning and spending on past capital equipment and projects and implementation of cost savings measures.

Governmental Activities

The Township's total governmental revenues increased by approximately \$61,000 during the year. This was derived primarily from an increase in the assessed fire millage (voluntarily rolled back in 2008) and an increase in the price of garbage tags.

Expenses increased by approximately \$69,000 during the year. This is attributed to the substantial capital spending and road betterments completed in conjunction with the water project. Since these expenditures are elective and not part of the water project, they are recorded in the governmental funds.

Business-Type Activities

The Township's business-type activities consist of the Water and Sewer Funds. The Township provides sewer services to some of its residents and water to not only its residents but the City of Crystal Falls, Mastodon Township and Hematite Township as well. Sewer services are purchased from the City of Crystal Falls and the Township provides water from its own system. The revenues in water fund increased due to an increase in water rates. In addition, various Township residents that had been historically charged by the City of Crystal Falls for water are now being charged by the Township. That income is included for the entirety of the current year and is only a portion of the previous year. Sewer revenues due to a charge increase implemented part way through the prior year. Expenses in the sewer fund decreased slightly which is attributable to a drop in purchased utility services. The expenses in the Water Fund rose due to an increase in depreciation and interest expenses associated with the water system capital improvements completed during the year.

The Township will continue to closely examine its utility operations this year to maintain profits and cash flows.

The Township's Funds

Analysis of the Township's major funds begins on page 12, following the entity-wide financial statements. The fund financial statements provide detailed information about the most significant funds, not the Township as a whole. The Township Board creates funds to help manage money for specific purposes as well as to show accountability for certain activities, such as a federal grant/loan. The Township's major funds for 2008-2009 include the General Fund, Fire Protection Fund, Township Improvement Fund and each of the business type funds.

The General Fund pays for most of the Township's governmental services. The most significant are general maintenance of Township property and buildings, parks and recreation, maintaining the Township's equipment, and general administration. These services are primarily funded from property taxes assessed to the residents of the Township and revenues shared with the State of Michigan.

TOWNSHIP OF CRYSTAL FALLS
MANAGEMENT'S DISCUSSION AND ANALYSIS
March 31, 2009

The Township's Water and Sewer Funds are funded primarily through charges to customers for the services received.

General Fund Budgetary Highlights

Over the course of the year, the Township Board amended the budget to take into account events during the year. Various accounts are amended as necessary, unanticipated expenditures are incurred by the Township in the course of its operations.

Capital Asset and Debt Administration

At the end of the 2008-2009 fiscal year, the Township had slightly more than \$7.3 million invested in a broad range of capital assets, including land and buildings, office equipment and a water system, net of depreciation. The water improvement project, undertaken during the prior fiscal year, was completed during the current fiscal year. In addition, the Township has invested significantly in roads within the Township which are not included in the total as the roads are owned by the Iron County Road Commission. These roads are maintained by the Road Commission with the costs recorded on their financial records.

The Township continued to timely service its existing debt in the Water Fund. Principal payments made during the year on the debt were \$44,000.

Economic Factors and Next Year's Budgets and Rates

The Township's budget for 2009-2010 calls for no change in property tax rates in the general fund nor the Fire Protection Fund. Because of the impact of Proposal A, the new Michigan Business Tax and decreasing State Shared Revenues, the Township needs to continue to watch its budget very closely. The state-wide tax reform act limits growth in taxable value on any individual property to the lesser of inflation or 5%. Because some properties increase in value by less than the inflationary rate, the mathematical result is that the total taxable value for the Township will grow at a rate less than inflation, before considering new property additions.

Business Type Funds will continue to be scrutinized carefully to be certain that rates and/or fees for services are proportionate to the related expenses. The Water Bond Ordinance that has been adopted calls for the regular increase in water rates. The Sewer Fund income and expenses will continue to be closely scrutinized to insure that the existing retained earnings deficit is eliminated as outlined in the deficit reduction plan.

Contacting the Township's Management

This financial report is intended to provide the citizens, taxpayers, customers, and investors with a general overview of the Township's finances and to show the Township's accountability for the money it receives. If you have questions about this report or need additional information, we welcome you to contact the Supervisor's office.

TOWNSHIP OF CRYSTAL FALLS
NOTES TO FINANCIAL STATEMENTS
March 31, 2009

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Township of Crystal Falls (Township) conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The following is a summary of the significant accounting policies used by the Township.

Reporting Entity

The Township is governed by an elected five member board of trustees (Board). The accompanying financial statements present the government, as the Township does not have any component units that are required to be presented, either discretely or blended.

JOINTLY GOVERNED ORGANIZATIONS

Crystal Falls Fire Authority

The Township of Crystal Falls and City of Crystal Falls participate jointly in the operation of the Crystal Falls Fire Authority. All of the financial operations of the Authority are recorded in a separate set of financial records and are available at the Fire Department Offices located in the Crystal Falls City Hall.

The funding formula approved by the members of the Local Units is split 50/50 between the City of Crystal Falls and the Township. The Township's contribution to the Fire Authority for the audit period was \$136,436.

Government-Wide and Fund Financial Statements

The government-wide statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the nonfiduciary activities of the government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment; and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenue.

TOWNSHIP OF CRYSTAL FALLS
NOTES TO FINANCIAL STATEMENTS
March 31, 2009

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Government-Wide and Fund Financial Statements (Continued)

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, relating to compensated absences, and claims and judgments are recorded only when payment is due.

Taxes Receivable – Current Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes levied on December 1 are payable in one installment by the 15th day of February of the ensuing year without penalty. The Township bills and collects its own property taxes and also taxes for Iron County and the Crystal Falls Community District Library. Collections and remittances of county and library taxes are accounted for in the Tax Collection Fund. Township real property taxes are recognized when levied and personal taxes are recognized when received.

The Township actually assessed 4.1422 mills for operations and 1.9924 mills for fire protection. The millage generated net tax collections of \$364,859 that is recorded in the General Fund and \$175,441 in the Fire Protection Fund.

TOWNSHIP OF CRYSTAL FALLS
NOTES TO FINANCIAL STATEMENTS
March 31, 2009

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

The Township reports the following major governmental funds:

The General Fund is the Township's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Fire Protection Fund accounts for the tax collections restricted for fire protection and pays primarily the quarterly commitments to the Crystal Falls Fire Authority.

The Township Improvement Fund accounts for transfers primarily from the General Fund and expends funds for designated non-utility capital projects.

The Township reports the following major proprietary funds:

The Water Fund accounts for the activities of the water distribution system.

The Sewer Fund accounts for the activities of the sewer collection system.

Private-sector standards of accounting issued prior to December 1, 1989, are generally followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with the standards of the Governmental Accounting Standards Board. The government has elected to also follow private-sector standards issued after November 30, 1989 for its business-type activities.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the government's utility function and various other functions of the government. Eliminations of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenue include: (1) charges to customers or applicants for goods, services or privileges provided; (2) operating grants and contributions; and (3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenue rather than as program revenue. Likewise, general revenue includes all taxes.

Proprietary funds distinguish operating revenue and expenses from nonoperating items. Operating revenue and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of the Township's proprietary funds relate to charges to customers for sales and services. The utility funds also

TOWNSHIP OF CRYSTAL FALLS
NOTES TO FINANCIAL STATEMENTS
March 31, 2009

NOTE A –SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINEUD)

Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

recognizes the portion of the fees intended to recover current costs (e.g., labor and materials to hook up new customers) as operating revenue. The portion intended to recover the cost of the infrastructure is recognized as nonoperating revenue. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses, depreciation on capital assets and debt costs associated with financing upgrades to the utility systems. All revenue and expenses not meeting this definition are reported as nonoperating revenue and expenses.

Assets, Liabilities, and Net Assets or Equity

Bank Deposits and Investments – Cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with a maturity of six months or less when acquired. Investments are stated at fair value.

Receivables and Payables – In general, outstanding balances between funds are reported as “due to/from other funds”. Any residual balances outstanding between the governmental activities and the business-type activities are reported in the government-wide financial statements as “due to/from other funds”.

All trade and property tax receivables are shown as net of allowance for uncollectible amounts. Property taxes are levied on each December 1st on the taxable valuation of property as of the preceding December 31st. Taxes are considered delinquent on February 28th of the following year, at which time penalties and interest are assessed.

Inventories and Prepaid Items – Inventories are valued at cost, on a first-in, first-out basis. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future fiscal years and are recorded as prepaid items in both government-wide and fund financial statements.

Restricted Assets – The revenue bonds of the enterprise funds require amounts to be set aside for utility system improvements, debt service principal and interest and a bond reserve. These amounts have been classified as restricted assets. In addition, the deposits placed on account by utility customers are also classified as restricted.

Capital Assets – Capital assets, which include property, plant and equipment are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial individual cost of more than \$1,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

TOWNSHIP OF CRYSTAL FALLS
NOTES TO FINANCIAL STATEMENTS
March 31, 2009

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Assets, Liabilities, and Net Assets or Equity (Continued)

The Township has elected not to report its infrastructure assets which is in compliance with Governmental Accounting Standards Board Statement Number 34 as the Township is a “tier three” entity. All future infrastructure asset additions will be recorded and reported in the government wide financial statements.

Interest incurred during the construction of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Property, plant and equipment is depreciated using the straight-line method over the following useful lives:

Buildings	40 - 60 years
Building Improvements	15 - 30 years
Water and Sewer Lines	40 - 60 years
Other Infrastructure	10 - 40 years
Vehicles	3 - 5 years
Office Equipment	5 - 7 years
Computer Equipment	3 - 7 years

Compensated Absences (Vacation, Personal and Sick Leave) – It is the Township’s policy to permit employees to accumulate earned but unused compensatory benefits. The Township does not have a determinable liability for unpaid accumulated sick leave since the Township has a policy not to pay any portion of the accumulated benefits to employees upon separation from service. All compensatory leave pay is accrued when incurred in the proprietary fund financial statements. A liability for this amount is reported in governmental funds only for employee terminations as of year-end as the use of current financial resources to satisfy the debt has not been determined.

Long-Term Obligations – In the government-wide financial statements and the proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight line method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt. In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs during the current period. The face amount of debt issued is reported as Other Financing Sources. Premiums received on debt issuances are reported as Other Financing Sources while discounts are reported as Other Financing Uses. Issuance costs are reported as debt service expenditures.

TOWNSHIP OF CRYSTAL FALLS
NOTES TO FINANCIAL STATEMENTS
March 31, 2009

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Assets, Liabilities, and Net Assets or Equity (Continued)

Fund Equity – In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

Comparative total data for the prior year have been presented only for individual enterprise funds in the fund financial statements in order to provide an understanding of the changes in the financial position and operations of these funds. Also, certain amounts presented in the prior year data have been reclassified in order to be consistent with the current year's presentation.

NOTE B – CASH AND INVESTMENTS

MCL 129.91 authorizes the Township to deposit and invest in the accounts of Federal insured banks, credit unions, savings and loan associations; bond securities and other direct obligations of the United States, or any agency or instrumentality of the United States; United States government or Federal agency obligation repurchase agreements, bankers' acceptance of United States banks; commercial paper rated within the two highest classifications, which mature not more than 270 days after the date of purchase, obligations of the State of Michigan or its political subdivisions which are rated as investment grade; and mutual funds composed of investment vehicles which are legal for direct investment by local units of government in Michigan. Financial institutions eligible for deposit of public funds must maintain an office in Michigan.

The Township has designated three banks and one investment organizations for the deposit of Township funds. The investments policy adopted by the board in accordance with Public Act 20 of 1943, as amended, has authorized only a portion of the investments described in the preceding paragraph. The Township's deposits and investment policy are in accordance with statutory authority.

At year end, the Township's deposits and investments were reported on the basic financial statements in the following categories:

Bank deposits (demand and times deposits)	\$ 1,114,884
Investment house deposits	<u>242,005</u>
TOTAL (includes trust and agency funds)	<u>\$ 1,356,889</u>

The federal insured bank balance of the Township's deposits is \$697,000.

TOWNSHIP OF CRYSTAL FALLS
NOTES TO FINANCIAL STATEMENTS
March 31, 2009

NOTE B – CASH AND INVESTMENTS (CONTINUED)

Items classified as investments on these financial statements consist solely of Certificates of Deposit with an original maturity date of more than 90 days from the date of acquisition. The investment totals are included in the deposit totals listed above.

NOTE C – EXCESS OF EXPENDITURES OVER APPROPRIATIONS IN BUDGETARY FUNDS

P.A. 621 of 1978, section 18(1), as amended, provides that a local unit of government shall not incur expenditures in excess of the amounts appropriated in any of its budgetary funds.

Included in the “Required Supplemental Information” section of this report is a listing of revenues and expenditures for the budgetary funds. The schedules reflect the original budget, amended budget and actual amounts for each of the fund’s activities. Some unfavorable variances occurred during the year primarily due to year end accruals and reclassifications.

NOTE D – ACCUMULATED DEFICITS

The Township has an accumulated fund balance/retained earnings deficits in its Sewer Fund. To be in compliance with Public Act 275 of 1980, as amended, the Township must formulate and file a deficit elimination plan. While the deficit still exists, revenues exceeded expenses during the year.

NOTE E – INTERFUND TRANSFERS

The following interfund transfer was recorded during the year and is reflected in the financial statements.

<u>Transfer from</u>	<u>Transfer to</u>	<u>Amount</u>
General	Township Improvement	\$ 200,000
Fire	Water	8,000

TOWNSHIP OF CRYSTAL FALLS

NOTE F – INTERFUND RECEIVABLE AND PAYABLE

The March 31, 2009, balances of interfund receivables and payables are as follows:

<u>Due From</u>	<u>Due to</u>	<u>Amount</u>
Improvement	General	\$ 132,169
Water	General	177
Tax Collection	General	19,653
General	Fire Protection	14,611
Tax Collection	Fire Protection	3,146
Tax Collection	Water utility	258

NOTE G – TOWNSHIP IMPROVEMENT FUND

Pursuant to a resolution of the Township Board, this fund was established to accumulate financial resources to be used for Township capital improvement and capital outlay type expenses.

The fund was initiated with a transfer from the General Fund. As mandated by law, such transfers are limited to two mills per year/five mills in total of the state equalized valuation of the real and personal property in the Township. Further, all interest earned on investments of the fund becomes part of the fund.

If deemed necessary for the operations of the Township, the Board at its discretion may transfer monies back to the General Fund.

TOWNSHIP OF CRYSTAL FALLS
NOTES TO FINANCIAL STATEMENTS
March 31, 2009

NOTE H – CHANGES IN CAPITAL ASSETS

Capital asset activity for the Township for the year ended March 31, 2008 was as follows:

NOTE I – DEFERRED COMPENSATION PLAN

The Township has established a deferred compensation plan under Internal Revenue Code Section 457. The plan, available to all regular Township employees, permits them to defer a portion of their current salary until future years. The deferred compensation is not available to the employees until termination, retirement, death, or unforeseeable emergency.

The Township does not have significant administrative involvement for the assets of the deferred compensation plan and each employee is electing investments for themselves.

March 31, 2009

NOTE I – DEFERRED COMPENSATION PLAN (CONTINUED)

The Township accounts for and reports its deferred compensation plan under provisions of both GASB Statements No. 32 “Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans” and GASB Statement No. 34, “Basis Financial Statements and Management’s Discussion and Analysis for State and Local Governments”.

GASB Statement No. 32 rescinded GASB Statement No. 2 and established accounting and financial reporting standards for Internal Revenue Code Section 457 deferred compensation plans of state and local governmental employers. The laws governing these plans were changed to state that as of August 20, 1996, new plans would not be considered eligible unless all assets and income of the plan are held in trust or covered by annuity contract for the exclusive benefits of the participants and their beneficiaries. The Township’s plan meets this requirement.

GASB Statement No. 34 amended GASB Statement No. 32 Paragraph 4, and the Township’s deferred compensation plan assets and liabilities are not reported in the Township’s financial statements.

The Township’s contribution was \$4,576 during the year.

NOTE J – PROPRIETARY FUND DEBT – WATER FUND

WATER SUPPLY SYSTEM REVENUE AND REVENUE REFUNDING BONDS – SERIES 1987

\$220,000 – In July of 1993, the Township refinanced its then outstanding Water Supply System Revenue Bonds – Series 1987 by entering into a “Savings Agreement” with the Michigan Municipal Bond Authority pursuant to the Authorities Local Government Refunding Revenue Bond Program. Through a reduction in the coupon interest rates, the refinancing effectively saved the Township \$49,925 in bond interest. Refinancing charges totaling \$15,318 were deferred and are being amortized on a straight line basis over the remaining life of the bonds.

The cumulative debt service is below:

Payable Fiscal Year	May 1	November 1		Total
	Interest	Interest	Principal	
2009-2010	\$ 5,000	\$ 1,823	\$ 10,000	\$ 16,823
2010-2011	4,600	1,658	10,000	16,258

2014-2018	7,400	1,150	70,000	78,550
TOTALS	\$ 28,400	\$ 8,470	\$ 125,000	\$ 161,870

TOWNSHIP OF CRYSTAL FALLS
NOTES TO FINANCIAL STATEMENTS
March 31, 2009

NOTE J – CHANGES IN LONG TERM DEBT (CONTINUED)

WATER SUPPLY SYSTEM REVENUE BONDS – SERIES 2007

The Township issued \$3,589,000 of limited revenue bonds on May 17, 2007, for the updating and enlargement of the water supply and distribution system. Payment of the bonds began in 2008 and run to 2048, with interest rates of 4.125%. The entire bond issue was purchased by the Rural Development Agency of the United States Department of Agriculture.

The cumulative debt service schedule is below:

Payable Fiscal Year	May 1		November 1		Total
	Interest	Principal	Interest		
2009-2010	\$ 73,322	\$ 35,000	\$ 72,600	\$ 180,922

TOTALS	\$1,852,496	\$ 3,555,000	\$ 1,779,175	\$ 7,186,671	

	Beginning Balance	Newly Issued	Retired	Ending Balance	Due within One Year
Water Supply Revenue Bonds	\$ 3,724,000	\$ 0	\$ (44,000)	\$ 3,680,000	\$ 45,000

NOTE K – RISK MANAGEMENT

The Township of Crystal Falls is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Township of Crystal Falls maintains commercial insurance covering each of those risks of loss. Management believes such coverage is sufficient to preclude any significant uninsured losses to the Township. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years.

**Report on Internal Control over Financial Reporting
And on Compliance and Other Matters Based on an
Audit of Financial Statements Performed in Accordance with
*Government Auditing Standards***

Members of the Township Board
Township of Crystal Falls
Crystal Falls, Michigan

I have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Township of Crystal Falls, Michigan (Township), as of and for the year ended March 31, 2009, which collectively comprise the Township's basic financial statements and have issued my report thereon dated July 22, 2009. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing my audit, I considered the Township's internal control over financial reporting as a basis for designing my auditing procedures for the purpose of expressing my opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Township's internal control over financial reporting. Accordingly, I do not express an opinion on the effectiveness of the Township's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the Township's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted principles such that there is more than a remote likelihood that a misstatement of the Township's financial statements that is more than inconsequential will not be prevented or detected by the Township's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the Township's internal control.

Report on Internal Control over Financial Reporting
And on Compliance and Other Matters Based on an
Audit of Financial Statements Performed in Accordance
With *Government Auditing Standards*
Township of Crystal Falls
Page Two

Internal Control Over Financial Reporting (Continued)

My consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. I did not identify any deficiencies in internal control over financial reporting that I consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Township's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit, and accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, the township board, the Michigan Department of Treasury, and federal awarding agencies and is not intended to be and should not be used by anyone other than these specified parties.

Barry E. Gaudette, CPA, PC

July 22, 2009

**Report on Compliance with Requirements Applicable to
Each Major Program and on Internal Control over Compliance
In Accordance with OMB Circular A-133**

Members of the Township Board
Township of Crystal Falls
Crystal Falls, Michigan

Compliance

I have audited the compliance of the Township of Crystal Falls, Michigan (Township), with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 *Compliance Supplement* that are applicable to each of its major federal programs for the year ended March 31, 2009. The Township's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the Township's management. My responsibility is to express an opinion on the Township's compliance based on my audit.

I conducted my audit of compliance in accordance with Auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that I plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Township's compliance with those requirements and performing such other procedures as I considered necessary in the circumstances. I believe that my audit provides a reasonable basis for my opinion. My audit does not provide a legal determination of the Township's compliance with those requirements.

In my opinion, the Township, complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended March 31, 2009.

Internal Control Over Compliance

The management of the Township, is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing my audit, I considered the Township's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine my auditing procedures for the purpose of expressing my opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, I do not express an opinion on the effectiveness of the Township's internal control over compliance.

A *control deficiency* in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control.

A *material weakness* is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control.

My consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify deficiencies in internal control over compliance that I consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, the Township Board, the Michigan Department of Treasury, and federal awarding agencies and is not intended to be and should not be used by anyone other than these specified parties.

Barry E. Gaudette, CPA, PC

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
March 31, 2009

NOTE A – BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards presents the activity of all federal awards programs of the Township of Crystal Falls, Michigan (Township). Federal awards received directly for federal agencies, as well as federal awards passed through other government agencies, are included on the schedule.

The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

The Township's reporting entity is defined in Note 1 of the basic financial statements.

NOTE B – BASIS OF ACCOUNTING

The accompanying schedule of expenditures of federal awards is presented using the modified basis of accounting, which is described in Note 1 of the Township's basic financial statements.
