Bal stated that the schedule that was submitted on August 12, 2009 showed the project to be completed in March. With the new revisions being made, Bal stated that it is very unlikely that the township will see any mapping done this Fall. Bal commented that the completion date probably will not be until August of 2010.

After further discussion, it was decided by the board to have Bal come up with a cost, at least for the mapping.

TOWNSHIPS AUDITED FINANCIAL STATEMENT REVIEW (SCOTT KENNEY)

Mr. Kenney supplied the board with the bound copy of the financial statements. Kenney stated that Barry Gadette had performed the township audit services for the year and had rendered his opinion, which is an unqualified opinion, which is the highest level of an opinion that a governmental entity or any entity could get. Kenney stated that the township's financial statements are in compliance with generally accepted accounting principals for the United States. Kenney stated that the total revenues for the year are \$791,000, the expenditures for the year are \$803,000 with a fund balance ending of \$965,000. The township ended the fiscal year with net assets of \$4.9 million, so it is in fine financial shape, Kenney commented. Kenney stated that the sewer fund has \$13,000.00 in it, which is on the plus side, water fund has \$97,000.00 in it, which has to have debt payments made out of it, so Kenny suggested that the board keep an eye on this fund. Overall, Kenney stated that Barry was satisfied with what he looked at in getting all the information done. Kenney also stated that there was a lot of activity this year and he found all record in good shape. The staff has certainly taken steps forward with the reconciliations. Kenney stated that was a struggle in the past, this year the information was there. Kenney gave his complements to the staff for taking care of that.

FIRE AUTHORITY 2010 PROPOSED BUDGET:

The board had a discussion on the Fire Authority budget provided to the board. Most agreed that this was not a budget and requested a budget be brought or sent to the board for review. Also, it was suggested that the City along with the Fire Authority board be invited to one of the township board meeting. Lesandrini stated that the City has only budgeted \$50,000.00 for the Fire Authority for next year, although Lesandrini stated, he has not received any documentation regarding that fact. Tinti stated that he had heard that the formula was changed to 1/3,1/3,1/3. Kut stated that in the minutes from August 25, 2009 Fire Authority meeting, which was approved by that board, stated that a motion to renew the Fire Authority Agreement that expired in November 2007 including a change in Article 9 entitled "Financing Fire Authority" reverting back to the original formula used in the original Fire Authority Agreement dated August 1990. Also, it was mentioned that the calculations of Article 9 which includes that each entity will contribute an amount that is based on 33% SEV, 33% Population and 34% average of 3 years use. Tinti stated that the Authority does not have the legal ability to amend the document with the City of Crystal Falls. Tinti stated that this was more of a recommendation. Tinti stated that the City of Crystal rather in- artfully, as to its other partner in the Authority, stated basically they don't have the money to perform the agreement as its written to give adequate funding to the Authority. Tinti stated that what needs to be done is a discussion between the funding partners, not the Authority. This is a partner that created a fund with this Authority, Tinti stated. Kut suggested that the board needs to see a contract that shows the expenditures and revenues. Lesandrini stated that he told the Authority the township paying \$50,000.00 more is not acceptable,

or if that be the case the township will have its own fire department . It was decided by the board members that the township needs a budget that shows expenditures and revenues. It was suggested to the board by Tinti to table the issue until the board is presented with a budget. Also he recommended correspondence be set up with the City to sit down and discuss this issue of funding the Authority.
